## Railway applications - Welding of railway vehicles and components - Part 2: Quality requirements and certification of welding manufacturer

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	6
4	Certification of welding manufacturers .....	6
5	Quality requirements for the welding manufacturer .....	8
5.1	Staff requirements .....	8
5.2	Technical requirements .....	10
5.3	Welding coordination organization .....	11
5.4	Welding procedure specification .....	11
5.5	Assignment of the requirements to certification level .....	11
6	Certification procedure .....	11
6.1	Audit for the certification .....	11
6.2	Certificate .....	12
7	Validity .....	12
Annex A (informative)	Possible allocation of parts and subassemblies of rail vehicles to the certification levels .....	14
Annex B (normative)	Tasks and areas of competence of the welding coordinator .....	16
Annex C (normative)	Requirements for the welding manufacturer .....	19
