DIN EN 847-2:2013-12 (E)

Tools for woodworking - Safety requirements - Part 2: Requirements for the shank of shank mounted milling

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 List of significant hazards 6

5 Safety requirements 6
5.1 General requirements for cylindrical shank 6
5.2 Stability of the shank of mounted tools 6
5.3 Stability of HSK mounted tools 12

6 Tool marking 14

Annex A (informative) Examples of calculation 16

A.1 Example of a calculation of nshank 16
A.2 Example of a calculation of nHSK 17

Annex B (informative) Method of measuring the eccentricity at clamping devices 18
