

DIN EN 847-2:2013-12 (E)

Tools for woodworking - Safety requirements - Part 2: Requirements for the shank of shank mounted milling

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 List of significant hazards	6
5 Safety requirements	6
5.1 General requirements for cylindrical shank	6
5.2 Stability of the shank of mounted tools	6
5.3 Stability of HSK mounted tools	12
6 Tool marking	14
Annex A (informative) Examples of calculation	16
A.1 Example of a calculation of nshank	16
A.2 Example of a calculation of nHSK	17
Annex B (informative) Method of measuring the eccentricity at clamping devices	18
Bibliography	19
