

ISO 22180:2019 (E)

CVD diamond tools — Categorization

Contents

	Foreword
1	Scope
2	Normative references
3	Terms and definitions
4	Classification of CVD diamond tools
4.1	CVD diamond-coated tools
4.2	CVD diamond thick film tools
4.3	Classification of CVD diamond tools
Annex A	(informative) Manufacturing processes — Synthesis of CVD diamond
Annex B	(informative) CVD diamond coating modifications
Annex C	(informative) Structure and characteristics of MCD and PCD tools
C.1	Structure and characteristics of MCD tools
C.2	Structure and characteristics of PCD tools
C.2.1	General
C.2.2	CVD diamond-coated tools
C.2.3	CVD diamond thick film tools
Annex D	(informative) Manufacture of CVD diamond-coated tools
D.1	Manufacture of CVD diamond-coated tools
D.2	Pre-treatment
D.3	Post-treatment
D.4	Manufactures of CVD diamond thick-film tools
D.4.1	General
D.4.2	Substrate material
D.4.3	Preparation of the cutting insert
D.4.4	Attachment to tool holders
D.4.5	Final processing
