ISO 26623-1:2020 (E)

Polygonal taper interface with flange contact surface — Part 1: Dimensions and designation of shanks

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Polygonal taper interface with flange contact surface

- 4.1 General
- 4.2 Polygon shanks
- 4.3 Dimensions

5 Design

- 5.1 Medium-transfer unit
- 5.2 Clamping forces

6 Designation

Annex A (informative) Recommendations for use and application

- A.1 Clamping forces
- A.2 Information about speeds, torques, bending loads and stiffness
- A.3 Information about material and heat treatment
- A.4 General surface hardness recommendations
- A.5 Dynamical balancing by design

Annex B (normative) Polygon shanks for stationary tools

- B.1 Polygon shanks — Design for stationary tools
- B.2 Polygon shanks — Dimensions for stationary tools
