

# DIN EN ISO 945-1:2019-10 (E)

## Microstructure of cast irons - Part 1: Graphite classification by visual analysis (ISO 945-1:2019)

---

<b>Contents</b>		Page
<b>European foreword</b> .....		3
<b>Foreword</b> .....		4
<b>Introduction</b> .....		5
<b>1 Scope</b> .....		6
<b>2 Normative references</b> .....		6
<b>3 Terms and definitions</b> .....		6
<b>4 General</b> .....		6
4.1 Designation system for classifying graphite in cast irons.....		6
4.2 Form.....		7
4.3 Distribution.....		8
4.4 Size.....		9
4.5 Visual classification of graphite.....		28
<b>5 Sampling and sample preparation</b> .....		28
5.1 Samples taken from a casting.....		28
5.2 Sample preparation.....		28
<b>6 Procedure for graphite classification</b> .....		28
6.1 Procedure for visual classification of graphite.....		28
6.2 Evaluation of the analysis results.....		29
<b>7 Reference images</b> .....		29
7.1 General.....		29
7.2 Reference images for graphite form.....		29
7.3 Reference images for the distribution of graphite (form I).....		29
7.4 Reference images for graphite size.....		29
<b>8 Designation of graphite by form, distribution and size</b> .....		30
8.1 Designation system.....		30
8.2 Designation of different graphite sizes within a casting.....		30
8.3 Designation of mixed graphite forms, distributions and sizes.....		31
8.4 Designation of unclassified graphite forms.....		31
8.5 Nodule count.....		31
<b>9 Report</b> .....		32
<b>Annex A (informative) Typical graphite forms in cast-iron materials — Examples of photomicrographs</b> .....		33
<b>Annex B (informative) Distribution of flake (lamellar) graphite (form I) — Examples of photomicrographs</b> .....		34
<b>Annex C (informative) Common terminology and main occurrences concerning graphite in cast irons</b> .....		35
<b>Bibliography</b> .....		37
