## Magnesium and magnesium alloys - Magnesium alloys for cast anodes

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Designations .....	1
4.1	Material .....	1
4.2	Casting process .....	1
5	Requirements .....	2
5.1	General .....	2
5.2	Chemical composition .....	2
6	Testing .....	5
6.1	Sampling .....	5
6.2	Determination of the chemical composition .....	5
6.3	Electrochemical testing .....	5
7	Rounding of numbers .....	5
8	Packaging and surface protection .....	5
Annex A (normative)	Test method for the determination of the electrode potential of galvanic anodes .....	6
Annex B (normative)	Test method for the determination of the rate of mass loss of galvanic anodes .....	8
Annex C (informative)	Cross-references of grade designations of this document to other standard grades of magnesium alloy ingots for cast anodes and magnesium alloys for cast anodes .....	11
Bibliography .....		12
