ISO 3116:2026-10 (E)

Magnesium and magnesium alloys - Wrought magnesium and magnesium alloys

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Designation 1
4.1 Material 1
4.2 Temper designation 2
4.3 Designations of product form 3
4.4 Designation of ordering 3

5 Requirements 3
5.1 Chemical composition 3
5.2 Mechanical properties 3
5.3 Frequency of testing 3

6 Sampling 3

7 Test pieces 3

8 Test methods 3
8.1 Chemical composition 3
8.2 Tensile test 4

9 Retests 4

10 Rounding of results 4

Annex A (informative) List of national designations corresponding to the ISO designation 24

Annex B (informative) Physical properties of wrought magnesium alloys 26

Annex C (informative) Heat-treatment schedules for wrought magnesium alloys 28
