

DIN EN 13835:2006-08 (E)

Founding - Austenitic cast irons

Contents		Page
Introduction		4
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Designation	5
5	Order information	5
6	Manufacture	5
7	Requirements	5
7.1	Chemical composition	5
7.2	Mechanical properties	5
8	Sampling	6
8.1	General	6
8.2	Frequency and number of tests	6
8.3	Samples	6
9	Testing	6
9.1	Chemical analysis	6
9.2	Tensile test	6
9.3	Impact test	7
9.4	Other properties	7
10	Retests	7
11	Inspection documentation	7
Annex A (informative) Properties and applications of the austenitic cast iron grades		14
Annex B (informative) Heat treatment		15
B.1	Stress relief	15
B.2	Heat treatment for high temperature stability	15
Annex C (informative) Additional mechanical and physical properties		16
Annex D (informative) Effect of alloying elements		21
Annex E (informative) Testing		22
Annex F (informative) Cross reference to other standards		23
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 97/23/EC		24
