

# DIN EN 15852:2010-11 (E)

## Ambient air quality - Standard method for the determination of total gaseous mercury

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | 4           |
| 1               | Scope .....   | 5           |
| 2               | Normative references .....  | 5           |
| 3               | Terms and definitions .....   | 5           |
| 4               | Symbols and abbreviated terms .....   | 8           |
| 4.1             | Symbols .....   | 8           |
| 4.2             | Abbreviations .....   | 11          |
| 5               | Principle .....   | 11          |
| 6               | Requirements .....  | 12          |
| 6.1             | Siting criteria .....   | 12          |
| 6.2             | Method requirements .....   | 12          |
| 6.3             | Method detection limit .....  | 12          |
| 6.4             | Field operation and quality control .....                                       | 12          |
| 7               | Reagents .....  | 12          |
| 8               | Apparatus .....   | 13          |
| 8.1             | Sampling equipment .....  | 13          |
| 8.2             | Analytical instrumentation .....  | 13          |
| 8.3             | Calibration equipment .....   | 13          |
| 9               | Sampling considerations .....   | 14          |
| 9.1             | Inlet location .....  | 14          |
| 9.2             | Sampling inlet and sampling line .....  | 14          |
| 9.3             | Measurement time .....  | 15          |
| 10              | Measurement procedure .....   | 16          |
| 10.1            | Calibration with AFS/AAS .....  | 16          |
| 10.2            | Calibration with Zeeman AAS .....   | 17          |
| 11              | Quality control .....   | 17          |
| 11.1            | Calibration robustness check .....  | 17          |
| 11.2            | Zero gas check .....  | 18          |
| 11.3            | Degradation of gold traps .....   | 18          |
| 11.4            | Proficiency testing scheme .....  | 18          |
| 11.5            | Accreditation .....   | 18          |
| 11.6            | Measurement uncertainty .....   | 18          |
| 12              | Calculation of results .....  | 18          |
| 12.1            | General .....   | 18          |
| 12.2            | Calculation of TGM concentrations to reference conditions .....                 | 19          |
| 12.3            | Method detection limit .....  | 20          |
| 12.4            | Repeatability .....   | 20          |
| 12.5            | Drift in instrument sensitivity .....   | 21          |
| 13              | Estimation of the measurement uncertainty method and performance criteria ..... | 21          |

|             |  |           |
|-------------|--|-----------|
| <b>13.1</b> | <b>Introduction .....</b>  | <b>21</b> |
| <b>13.2</b> | <b>Assessment against target measurement uncertainty for individual laboratories .....</b>                                     | <b>22</b> |
| <b>13.3</b> | <b>Use of uncertainties in reporting of results .....</b>  | <b>23</b> |
| <b>14</b>   | <b>Performance characteristics determined in field tests .....</b>   | <b>24</b> |
| <b>15</b>   | <b>Interferences .....</b>   | <b>24</b> |
| <b>15.1</b> | <b>General .....</b>   | <b>24</b> |
| <b>15.2</b> | <b>Mercury analyser based on amalgamation and CVAAS or CVAFS .....</b>   | <b>24</b> |
| <b>15.3</b> | <b>Mercury analyser based on Zeeman AAS .....</b>  | <b>25</b> |
| <b>16</b>   | <b>Reporting of results .....</b>  | <b>25</b> |
|             | <b>Annex A (informative) Sampling sites .....</b>  | <b>26</b> |
|             | <b>Annex B (informative) Manual method TGM .....</b>   | <b>27</b> |
|             | <b>Annex C (informative) Summary of field validation tests .....</b>   | <b>29</b> |
|             | <b>Annex D (informative) Characteristics of the mercury vapour source .....</b>  | <b>34</b> |
|             | <b>Annex E (informative) Calibration .....</b>   | <b>37</b> |
|             | <b>Annex F (informative) Assessment against target uncertainty by an individual laboratory .....</b>                           | <b>38</b> |
|             | <b>Annex G (informative) Relationship between this European Standard and the Essential Requirements of EU Directives .....</b> | <b>44</b> |
|             | <b>Bibliography .....</b>  | <b>45</b> |
