DIN EN 15853:2010-11 (E)

Ambient air quality - Standard method for the determination of mercury deposition

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms, definitions and abbreviations 4

4 Principle of mercury deposition determinations 7

5 Siting requirements for mercury deposition determinations 7

6 Reagents 8

7 Sampling 9

8 Analysis 11

9 Quality control 11

10 Calculation of results 12

11 Estimation of the measurement uncertainty of the method 14

12 Performance characteristics determined in field tests 15

13 Reporting of results 16

Annex A (informative) Sampling equipment that can be used for precipitation sampling 17

Annex B (informative) Sampling procedure 20

Annex C (informative) Analytical procedure 22

Annex D (informative) Summary of field trial validation tests 27

Annex E (informative) Relationship between this European Standard and the Essential Requirements of EU Directives 32
