

DIN EN 12619:2013-04 (E)

Stationary source emissions - Determination of the mass concentration of total gaseous organic carbon - Continuous flame ionisation detector method

Contents		Page
Foreword	3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	The principle of the technique	6
5	Requirements for apparatus and gases	7
6	Measurement procedure	9
Annex A (normative) Determination of the performance characteristics of a FID		12
Annex B (informative) Basic functionality of an FID		15
Annex C (informative) Measurement uncertainty and associated statistics		18
Annex D (informative) Safety measures		20
Annex E (informative) Significant technical changes		21
Bibliography		22
