National foreword 3

National Annex NA (informative) Bibliography 5

Introduction 9

1 Scope 10

2 Normative references 10

3 Terms and definitions 10

4 Symbols and abbreviations 12
4.1 Symbols 12
4.2 Abbreviations 13

5 Principle 13

6 Apparatus and material 13
6.1 Equipment and materials for adhesive tape sampling and preparation 13
6.2 Equipment and material for analysis 14

7 Sampling 14
7.1 Measurement planning 14
7.2 Measurement objectives and sampling sites 15
7.3 Number of samples 16
7.4 Requirements on the sampled surface 17
7.5 Sampling procedure 17
7.6 Sampling record 18

8 Analysis (SEM) 19
8.1 Adjustment of the SEM 19
8.2 Procedure 19
8.3 Fibre classification by EDXA 22

9 Calculation and presentation of results 28

10 Record of analysis 29

11 Measurement uncertainty 29
11.1 General 29
11.2 Random sample related deviation 30
11.3 Deviations in analysis and weighting of the count results 30
11.4 Detection limit 30

12 Applications and instructions for use 31
12.1 General 31
12.2 Sample requirements 31
12.3 Summary of the results for multiple individual samples 32

Annex A (informative) Example of SEM structure counting form 33

Annex B (normative) Procedures for calibration and adjustment of the SEM 34

Annex C (informative) Random sample related deviation 35

Annex D (informative) Example: using the method in an indoor environment 39
