|-------------------------|---|-------------|
| European foreword ..... |   | 3           |
| Introduction .....      |   | 4           |
| 1                       | Scope .....   | 5           |
| 2                       | Normative references .....  | 5           |
| 3                       | Terms and definitions .....   | 6           |
| 4                       | General requirements .....  | 7           |
| 4.1                     | Basic items for proficiency testing schemes for emission measurements .....   | 7           |
| 4.2                     | Impartiality .....  | 8           |
| 4.3                     | Confidentiality .....   | 8           |
| 5                       | Structural requirements .....   | 9           |
| 6                       | Resource requirements .....   | 9           |
| 6.1                     | General .....   | 9           |
| 6.2                     | Personnel .....   | 9           |
| 6.3                     | Facilities and environmental conditions .....   | 10          |
| 6.4                     | Externally provided products and services .....   | 10          |
| 7                       | Process requirements .....  | 11          |
| 7.1                     | Communication with participants .....   | 11          |
| 7.2                     | Planning of a proficiency testing scheme .....  | 12          |
| 7.2.1                   | General .....   | 12          |
| 7.2.2                   | Choice of method or procedure .....   | 13          |
| 7.2.3                   | Statistical design .....  | 14          |
| 7.2.4                   | Determination of assigned values .....  | 14          |
| 7.3                     | Operations related to the production of the test atmosphere .....   | 14          |
| 7.3.1                   | Preparation of the test atmosphere .....  | 14          |
| 7.3.2                   | Homogeneity and stability assessment of the test atmosphere .....   | 15          |
| 7.3.3                   | Handling and storage of proficiency test items .....  | 17          |
| 7.3.4                   | Packaging, labelling and distribution of proficiency test items .....   | 17          |
| 7.3.5                   | Instructions for participants .....   | 17          |
| 7.4                     | Data analysis and evaluation and reporting of proficiency testing scheme results .....                                    | 18          |
| 7.4.1                   | Data analysis .....   | 18          |
| 7.4.2                   | Evaluation of performance .....   | 18          |
| 7.4.3                   | Proficiency test reports .....  | 20          |
| 8                       | Management system requirements .....  | 20          |
| Annex A (informative)   | Overview on selected proficiency testing facilities providing proficiency testing schemes for emission measurements ..... | 21          |
| Bibliography .....      |   | 23          |
