| Foreword .....     |   | iv          |
| Introduction ..... |   | iv          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....                            | 1           |
| 3                  | Terms and definitions .....                           | 1           |
| 4                  | Principle .....                                       | 2           |
| 5                  | Reagents .....  | 2           |
| 6                  | Apparatus .....                                       | 3           |
| 7                  | Sampling .....  | 5           |
| 8                  | Analytical procedure by ion selective electrode ..... | 9           |
| 9                  | Expression of results .....                           | 11          |
| 10                 | Performance characteristics .....                     | 13          |
| 11                 | Test report .....                                     | 13          |
