DIN EN 15081:2008-03 (E)

Industrial valves - Mounting kits for part-turn valve actuator attachment

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Design requirements 5
4.1 General 5
4.2 Materials 5
4.3 Design temperature 6
4.4 Environmental corrosion protection 6
4.5 Mounting kit 6
4.6 Coupling 7
4.7 Designation 7
4.8 Position indicator 8
4.9 Buried service 8
4.10 Safety requirement (mechanical/thermal protection) 8
4.11 Orientation 8
4.12 Additional anti-rotation means 8
4.13 Valve/actuator package maintenance 8

5 Dimensions 9
5.1 Bracket 9
5.2 Valve top flange 10
5.3 Coupling 10
5.4 Spools and adapter flanges 12

6 Marking 12
6.1 General 12
6.2 Mandatory information 12
6.3 Optional information 12

7 Documentation 12
7.1 Language 12
7.2 Product documentation 12

Annex A (normative) Coupling axial clearance 13

Annex B (informative) Proposed stem details for ball and butterfly valves 15

B.1 General 15
B.2 Proposed stem details for ball valves 16
B.3 Proposed stem details for butterfly valves 16
