# DIN EN 15714-3:2010-02 (E)

## Industrial valves - Actuators - Part 3: Pneumatic part-turn actuators for industrial valves - Basic requirements

## Contents

Page

Foreword ..... 4

1 Scope ..... 5

2 Normative references ..... 5

3 Classification/Designation ..... 5
3.1 General ..... 5
3.2 Action ..... 5
3.3 Actuator attachment ..... 5
3.4 Performance data ..... 6
3.4.1 Output torques ..... 6
3.4.2 Minimum moving pressure ..... 6
3.4.3 Operating time ..... 6
3.4.4 Air volume ..... 6
3.4.5 Motive energy ..... 6

4 Design requirements ..... 6
4.1 Endurance of part-turn actuators ..... 6
4.2 Leakage ..... 7
4.3 Angle for part-turn actuators ..... 7
4.4 Environmental conditions ..... 7
4.4.1 Ambient temperature ..... 7
4.4.2 Enclosure protection ..... 8
4.4.3 Corrosion protection ..... 8
4.5 Basic design ..... 8
4.5.1 Safety requirements ..... 8
4.5.2 Part-turn actuator attachment ..... 9
4.5.3 Pressure connections and pilot valves interface ..... 9
4.5.4 Fail safe direction for spring return actuators ..... 11
4.5.5 Mechanical safety factors ..... 11
4.5.6 Position indication ..... 11
4.6 Optional equipment ..... 11
4.6.1 Ancillaries ..... 11
4.6.2 Manual operation ..... 13
4.6.3 End stop adjustment for part-turn actuators ..... 14

5 Conformity assessment ..... 14
5.1 General ..... 14
5.2 Type tests ..... 14
5.3 Control of production process and quality system ..... 14

6 Marking ..... 15
6.1 General requirements on marking ..... 15

7 Part-turn actuator selection guidelines ..... 16

8 Documentation ..... 16

Annex A (normative) Endurance test procedure ..... 17

A.1 General ..... 17
A.2 Test equipment ..... 17
A.3 Test conditions ..... 17
A.4 Test procedure ..... 17
A.5 Acceptance criteria ..... 17

Annex B (informative) Actuator selection guidelines ..... 19

B.1 General ..... 19
B.2 Selection parameters ..... 19
B.3 Actuator selection ..... 20
B.3.1 General ..... 20
B.3.2 Torque characteristics for rack and pinion or vane actuators ..... 21
B.3.3 Torque characteristics for scotch yoke actuators (e.g. symmetric system) ..... 22

Bibliography ..... 23
