Industrial valves - Measurement, test and qualification procedures for fugitive emissions - Part 2: Production acceptance test of valves

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Preparation of test valves	1
4.1	Valve selection	1
4.2	Preconditioning	1
4.3	Stem (or shaft) seal adjustment	2
5	Test conditions	2
5.1	Test fluid	2
5.2	Leakage measurement	2
5.3	Test pressure	2
5.4	Test temperature	2
6	Test procedure and evaluation of test results	2
6.1	Measurement of stem (or shaft) seal leakages	2
6.2	Measurement of leakage of body seal(s)	3
7	Marking	3
8	Certification of compliance	3
