

DIN EN 16668:2016-11 (E)

Industrial valves - Requirements and testing for metallic valves as pressure accessories

Contents		Page
European foreword		4
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	8
4	Category of valves	9
4.1	Classification of valves	9
4.2	Sound engineering practice	9
5	Requirements	9
5.1	Design	9
5.1.1	General	9
5.1.2	Shell design strength	10
5.1.3	Protection against exceeding the allowable limits	10
5.2	Materials	10
5.2.1	General requirements	10
5.2.2	European harmonized standards	10
5.2.3	European approval of materials (EAM)	10
5.2.4	Particular Material Appraisal (PMA)	11
5.2.5	Requirements for prevention of brittle fracture at low temperatures	11
5.2.6	Selection of bolting material	11
5.2.7	Material selection for parts other than shell	11
5.3	Manufacturing	12
5.3.1	Welding	12
5.3.2	Heat treatment	13
5.3.3	Traceability	14
5.3.4	Qualification of non-destructive testing personnel	14
5.4	Non-destructive testing (NDT)	14
5.4.1	Non-destructive testing of steel castings	14
5.4.2	Non-destructive testing of joint welding	14
5.5	Final assessment	14
5.6	Marking	15
5.7	Surface and coating testing	15
5.8	Documentation	15
5.8.1	Documentation for final inspection	15
5.8.2	Accompanying documents	16
Annex A (normative)	Classification of valves	17
Annex B (informative)	European harmonized standards for materials and components for shell parts	23
Annex C (informative)	European Approval of Materials (EAM)	25
Annex D (informative)	European harmonized supporting standards for valves	26

Annex E (informative) Non-destructive testing of steel castings	28
E.1 Terms and Definitions	28
E.2 Non-destructive testing of steel castings	28
E.2.1 General	28
E.2.2 Testing procedures	32
Annex F (normative) Non-destructive testing (NDT) of joint welding	37
F.1 General	37
F.2 Non-destructive testing (NDT) extent	37
F.3 Selection of NDT-methods	43
Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2014/68/EU (Pressure equipment Directive) aimed to be covered	45
Bibliography	48
