## Electric actuators for industrial valves - General requirements

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
|                 | <b>Foreword</b> .....                                       | <b>v</b>    |
| <b>1</b>        | <b>Scope</b> .....  | <b>1</b>    |
| <b>2</b>        | <b>Normative references</b> .....                           | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions</b> .....                          | <b>1</b>    |
| <b>4</b>        | <b>Classification — Designation</b> .....                   | <b>3</b>    |
| 4.1             | General.....  | 3           |
| 4.2             | Type.....   | 4           |
| 4.3             | Actuator duty classification.....                           | 4           |
| 4.4             | Action on loss of external electric power.....              | 4           |
| 4.4.1           | Stay put action.....  | 4           |
| 4.4.2           | Fail-safe action.....                                       | 4           |
| <b>5</b>        | <b>Design requirements</b> .....                            | <b>4</b>    |
| 5.1             | Endurance.....  | 4           |
| 5.1.1           | General.....  | 4           |
| 5.1.2           | Part-turn actuators.....                                    | 5           |
| 5.1.3           | Multi-turn actuators.....                                   | 5           |
| 5.1.4           | Linear actuators.....                                       | 5           |
| 5.2             | Environmental conditions.....                               | 6           |
| 5.2.1           | General.....  | 6           |
| 5.2.2           | Ambient temperature and humidity.....                       | 6           |
| 5.2.3           | Altitude.....   | 6           |
| 5.2.4           | Enclosure protection.....                                   | 6           |
| 5.2.5           | External corrosion protection.....                          | 6           |
| 5.2.6           | Vibrations, shock and seismic conditions.....               | 7           |
| 5.3             | Actuator attachment.....                                    | 7           |
| 5.3.1           | Part-turn actuators.....                                    | 7           |
| 5.3.2           | Multi-turn actuators.....                                   | 7           |
| 5.3.3           | Linear actuators.....                                       | 7           |
| 5.4             | Primary closing direction.....                              | 8           |
| 5.5             | Fail-safe direction.....                                    | 8           |
| 5.6             | Electrical connections — Cable entries.....                 | 8           |
| 5.7             | Self-locking/braking.....                                   | 8           |
| 5.8             | Performance.....  | 9           |
| 5.8.1           | Power supply tolerances.....                                | 9           |
| 5.8.2           | Actuator duty performances.....                             | 9           |
| 5.8.3           | Operating time and speed.....                               | 10          |
| 5.9             | Basic design requirements.....                              | 11          |
| 5.9.1           | Motors.....   | 11          |
| 5.9.2           | Gearing lubricant.....                                      | 11          |
| 5.9.3           | Manual operation.....                                       | 11          |
| 5.9.4           | Travel limitation.....                                      | 11          |
| 5.9.5           | Torque/thrust limitation.....                               | 12          |
| 5.9.6           | Structural integrity.....                                   | 12          |
| 5.9.7           | End stop adjustment for part-turn and linear actuators..... | 12          |
| 5.9.8           | Noise.....  | 12          |
| <b>6</b>        | <b>Optional equipment</b> .....                             | <b>12</b>   |

|           |   |           |
|-----------|---|-----------|
| 6.1       | General.....  | 12        |
| 6.2       | Anti-condensation heater.....                                   | 12        |
| 6.3       | Position transmitter.....                                       | 13        |
| 6.4       | Actuator running transmitter.....                               | 13        |
| 6.5       | Additional position and/or torque signalling.....               | 13        |
| 6.6       | Local control station.....                                      | 13        |
| 6.7       | Local position indication.....                                  | 13        |
| 6.8       | Actuator electrical controls.....                               | 13        |
| 6.8.1     | General.....  | 13        |
| 6.8.2     | Positioner.....   | 13        |
| 6.8.3     | Controller.....   | 13        |
| 6.8.4     | Speed control.....  | 13        |
| 6.8.5     | Field bus system interface.....                                 | 14        |
| 6.8.6     | Torque transmitter (analogue or digital).....                   | 14        |
| 6.8.7     | Actuator performance data logger.....                           | 14        |
| <b>7</b>  | <b>Type and production test.....</b>                            | <b>14</b> |
| 7.1       | General.....  | 14        |
| 7.2       | Type tests.....   | 14        |
| 7.3       | Control of production process.....                              | 15        |
| <b>8</b>  | <b>Marking.....</b>   | <b>16</b> |
| 8.1       | General.....  | 16        |
| 8.2       | Mandatory marking.....  | 16        |
| 8.3       | Optional marking.....   | 16        |
| <b>9</b>  | <b>Documentation.....</b>                                       | <b>17</b> |
| 9.1       | General.....  | 17        |
| 9.2       | Mandatory documentation.....                                    | 17        |
| 9.3       | Optional documentation.....                                     | 17        |
| <b>10</b> | <b>Packaging.....</b>   | <b>17</b> |
|           | <b>Annex A (normative) Endurance test procedure.....</b>        | <b>18</b> |
|           | <b>Annex B (informative) Actuator selection guidelines.....</b> | <b>19</b> |
|           | <b>Annex C (informative) Load profiles.....</b>                 | <b>21</b> |
|           | <b>Bibliography.....</b>  | <b>24</b> |
