|-------------------------|--|-------------|
| European foreword ..... |  | 4           |
| Introduction .....      |  | 4           |
| 1                       | Scope .....  | 6           |
| 2                       | Normative references .....   | 6           |
| 3                       | Terms and definitions .....  | 7           |
| 4                       | Denomination .....   | 9           |
| 5                       | Designation .....  | 9           |
| 6                       | Symbolization .....  | 9           |
| 7                       | Physical-chemical characteristics .....  | 10          |
| 7.1                     | General .....  | 10          |
| 7.2                     | Materials .....  | 10          |
| 7.2.1                   | General .....  | 10          |
| 7.2.2                   | Dezincification resistant copper alloy .....   | 10          |
| 7.3                     | Surface of the body .....  | 10          |
| 7.3.1                   | General .....  | 10          |
| 7.3.2                   | Epoxy Coating .....  | 11          |
| 7.3.3                   | Polyamide Powder based Coating .....   | 11          |
| 8                       | Design .....   | 11          |
| 8.1                     | General .....  | 11          |
| 8.2                     | Relief valve/Obturator .....   | 11          |
| 8.2.1                   | General .....  | 11          |
| 8.2.2                   | Mechanical Disconnecter Family G, Type A .....   | 12          |
| 8.3                     | Disconnection distance .....   | 12          |
| 9                       | Characteristics and tests .....  | 12          |
| 9.1                     | General .....  | 12          |
| 9.2                     | General tolerances .....   | 12          |
| 9.2.1                   | Tolerance of set parameters .....  | 12          |
| 9.2.2                   | Accuracy of measuring instruments .....  | 12          |
| 9.3                     | Dimensional characteristics .....  | 12          |
| 9.3.1                   | Connections .....  | 12          |
| 9.3.2                   | Pressure taps .....  | 12          |
| 9.4                     | Mechanical characteristics .....   | 13          |
| 9.4.1                   | General .....  | 13          |
| 9.4.2                   | Mechanical resistance of the body under pressure .....   | 13          |
| 9.4.3                   | Endurance .....  | 14          |
| 9.4.4                   | Torque test of Captive rotating Nuts and Bending Strength - Tightness of the Body 15 9.5<br>Leak tightness characteristics .....                 | 15<br>16    |
| 9.5.1                   | Verification of the leak tightness of the downstream check valve in closing direction .....  | 16          |
| 9.5.2                   | Verification of the leak tightness of check valve device (opening direction) .....   | 16          |
| 9.5.3                   | Verification of the leak tightness of the upstream spring loaded obturator in drain<br>position at low pressure (in the opening direction) ..... | 17          |
