

ISO/TS 24534-2:2007-12 (E)

Automatic vehicle and equipment identification - Electronic Registration Identification (ERI) for vehicles - Part 2: Operational requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Abbreviations	4
5	Onboard ERI equipment requirements	5
5.1	ERI System context	5
5.2	ERT	5
5.3	Operational parameters	5
5.4	ERT memory allocation	7
5.5	Security of ERI data	8
5.6	Onboard ERI equipment categories	8
5.7	ERT location	8
5.8	Onboard ERI equipment safety	8
5.9	Environmental requirements	9
5.10	ERT security	9
5.11	ERT Life cycle	9
6	ERI system organizational framework	10
Annex A (informative) Example user requirements and operational scenarios		11
Annex B (informative) Typical operational usage of onboard ERI equipment		15
Annex C (informative) Example of ERI system stakeholders		16
