

ISO 17572-3:2008-12 (E)

Intelligent transport systems (ITS) - Location referencing for geographic databases - Part 3: Dynamic location references (dynamic profile)

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Abbreviated terms (and attribute codes)	5
4.1	Abbreviations	5
4.2	Attribute codes	5
5	Objectives and requirements for a location referencing method	6
6	Conceptual data model for location referencing methods	6
7	Specification of dynamic location references	6
7.1	General Specification	6
7.2	Location referencing building blocks	7
8	Encoding rules	19
8.1	Introduction	19
8.2	General point representation and selection rules	19
8.3	Location reference core encoding rules	19
8.4	Location reference extension encoding rules	26
8.5	Coding of point locations	29
8.6	Coding of area locations	29
9	Logical data format specification	33
9.1	General	33
9.2	Data model definition	33
Annex A (informative) TPEG physical format specification for dynamic location references		37
Annex B (informative) Coding guidelines for dynamic location references		59
Annex C (informative) Compressed data format specification		65
Bibliography		88
