

ISO 24534-2:2010-07 (E)

Automatic vehicle and equipment identification - Electronic registration identification (ERI) for vehicles - Part 2: Operational requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Abbreviated terms	4
5	System requirements	5
5.1	ERI system context	5
5.2	ERT	5
5.3	Operational parameters	5
5.4	ERT memory allocation	6
5.5	Security of ERI data	6
5.6	ERT location	6
5.7	Onboard ERI equipment safety	6
5.8	Environmental requirements	7
5.9	ERT security	7
5.10	ERT life cycle	7
6	System classification requirements	8
6.1	General	8
6.2	ERT lifetime classification	8
6.3	ERT power sources	8
6.4	ERT read classification	9
6.5	Onboard ERI equipment categories	9
7	ERI system organizational framework	10
Annex A (informative) Example user requirements and operational scenarios		11
Annex B (informative) Typical operational usage of onboard ERI equipment		15
Annex C (informative) Example of ERI system stakeholders		16
