

# ISO 17458-5:2013-02 (E)

## Road vehicles - FlexRay communications system - Part 5: Electrical physical layer conformance test specification

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms, definitions, symbols and abbreviated terms .....	1
3.1	Terms and definitions .....	1
3.2	Abbreviated terms .....	2
4	Document reference according to OSI model .....	3
5	Conventions .....	4
5.1	General .....	4
5.2	Notational conventions .....	4
6	Test environment .....	4
6.1	Test case architecture .....	4
6.2	Test method .....	5
6.3	Test environment .....	9
6.4	Test topology .....	9
6.5	Test equipment .....	27
7	Stress Conditions .....	34
7.1	Ground shift .....	34
7.2	Low battery voltage inside operational range .....	35
7.3	Undervoltage .....	36
7.4	Dynamic low battery voltage .....	37
7.5	Dynamic low supply voltage .....	38
7.6	Failures .....	41
7.7	Babbling idiot .....	47
7.8	Dynamic ground shift .....	47
7.9	EMC .....	48
7.10	ESD .....	48
7.11	Temperature tests .....	48
7.12	Common mode offset .....	48
8	Parameter List .....	49
8.1	General .....	49
8.2	Static test cases .....	50
8.3	Communication .....	50
8.4	Host Interface .....	54
8.5	Mode .....	55
8.6	Power supply .....	59
8.7	Environment .....	61
8.8	Dynamic low battery voltage .....	62
8.9	Dynamic low supply voltage .....	62
8.10	Failure .....	62
8.11	Functional class .....	65

8.12	Simulation .....	65
9	Test Cases for Bus Drivers .....	65
9.1	Configuration .....	66
9.2	Static test cases .....	89
9.3	Test cases .....	97
10	Test cases for Active Stars .....	563
10.1	General .....	563
10.2	Configuration .....	563
10.3	Static test cases .....	577
10.4	Test cases .....	584
11	Test cases for Active Stars with communication controller interface .....	717
11.1	Configuration .....	717
11.2	Static test cases .....	724
11.3	Test cases .....	728
12	Test Cases for Active Stars with host interface .....	795
12.1	Configuration .....	795
12.2	Static test cases .....	800
12.3	Test cases .....	803
	Annex A (normative) FlexRay parameters .....	922
	Bibliography .....	930
