ISO/TS 25110:2013-05 (E)

Electronic fee collection - Interface definition for on-board account using integrated circuit card (ICC)

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 2

4 Abbreviations 6

5 Data transfer model 6
5.1 Overview 6
5.2 Symbols 7
5.3 Transparent type 7
5.4 Caching type 8
5.5 Buffering type 9

6 Interface definition for ICC access 10
6.1 Transparent type 10
6.2 Caching type 11
6.3 Buffering type 12

Annex A (informative) On-board account requirements 14

Annex B (informative) Example of an ICC access method 16

Annex C (informative) Interoperability relation with other sectors 31
