DIN 76722:2013-12 (E)

Road vehicles - Electrical cables - Design rule for abbreviation codes

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Abbreviation code structure 4
3.1 General 4
3.2 Cable type code 4
3.3 Special design feature codes 4
3.4 Conductor material codes 5
3.5 Insulation wall thickness 5
3.6 Insulation and sheath materials 6
3.7 Non-extruded cladding 7
3.8 Number of cores, nominal conductor cross-section, specific DC resistance per unit length 7
3.9 Continuous operating temperature (temperature class rating) 8
3.10 Colour identification 8
3.11 Nominal voltage 8

Annex A (informative) Examples of how abbreviation codes of cables for road vehicles are to be structured 9
