

# ISO 16844-4:2015-01 (E)

## Road vehicles - Tachograph systems - Part 4: CAN interface

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative reference .....                          | 1           |
| 3                  | Terms and definitions .....                        | 1           |
| 4                  | Symbols and abbreviated terms .....                | 1           |
| 5                  | Physical layer application requirements .....      | 2           |
| 5.1                | General .....                                      | 2           |
| 5.2                | Bit timing requirements .....                      | 3           |
| 5.2.1              | General .....                                      | 3           |
| 5.2.2              | CAN bit timing requirements for 250 kbit/s .....   | 3           |
| 5.2.3              | CAN bit timing requirements for 500 kbit/s .....   | 4           |
| 6                  | Data link layer application requirements .....     | 4           |
| 6.1                | Message frame format .....                         | 4           |
| 6.1.1              | General .....                                      | 4           |
| 6.1.2              | Priority (P) bits .....                            | 5           |
| 6.1.3              | Extended data page (EDP) bit .....                 | 5           |
| 6.1.4              | Data page (DP) bit .....                           | 5           |
| 6.1.5              | PDU format (PF) field .....                        | 5           |
| 6.1.6              | PDU specific (PS) field .....                      | 5           |
| 6.1.7              | Source address (SA) field .....                    | 5           |
| 6.1.8              | Data field .....                                   | 6           |
| 6.2                | PDU specification .....                            | 6           |
| 6.2.1              | Parameter group number (PGN) .....                 | 6           |
| 6.2.2              | PDU format .....                                   | 6           |
| 6.3                | Message types .....                                | 6           |
| 6.3.1              | General .....                                      | 6           |
| 6.3.2              | RQST -- Request .....                              | 7           |
| 6.3.3              | ACKM -- Acknowledgment message .....               | 8           |
| 7                  | Transport protocol .....                           | 8           |
| 7.1                | General .....                                      | 8           |
| 7.2                | BAM -- Broadcast announce message .....            | 9           |
| 7.3                | TP.DT -- Transport protocol -- Data transfer ..... | 9           |
| 8                  | Application layer .....                            | 10          |
| 8.1                | General .....                                      | 10          |
| 8.2                | TD -- Time/Date .....                              | 10          |
| 8.3                | VI -- Vehicle identification .....                 | 11          |
| 8.4                | VDHR -- High resolution vehicle distance .....     | 11          |
| 8.5                | SERV -- Service information .....                  | 12          |
| 8.6                | RESET -- Reset .....                               | 12          |
| 8.7                | TCO1 -- Tachograph .....                           | 13          |
| 8.8                | DI -- Driver's identification .....                | 14          |
| 8.9                | TDA -- Time/Date adjust .....                      | 14          |

|      |  |    |
|------|--|----|
| 8.10 | EEC1 -- Electronic engine controller 1 ..... | 15 |
| 8.11 | CL -- Cab illumination message .....         | 16 |
| 8.12 | DRTD1 -- Driver 1 driving rest times .....   | 16 |
| 8.13 | DRTD2 -- Driver 2 driving rest times .....   | 17 |
| 9    | Addresses .....                              | 18 |
|      | Bibliography .....                           | 19 |
