Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Symbols and abbreviated terms 4

5 General requirements 4
5.1 ITS service domains, service groups and services 4
5.1.1 Characteristics of ITS service domains 4
5.1.2 Characteristics of ITS service groups 5
5.1.3 Characteristics of ITS services 5
5.2 ITS users 5

6 The structure of ITS service domains 6
6.1 ITS service domains 6
6.2 Cooperative-ITS 7
6.3 Service Domain Structure 7
6.4 ITS service groups for each domain 12
6.5 Use of ITS services to provide Object Identifiers for data concepts 13

Annex A (normative) Traveller Information service domain 14

Annex B (normative)TrafficManagementandOperationsservicedomain 23

Annex C (normative) Vehicle Services domain 36

Annex D (normative) Freight transport services domain 42

Annex E (normative) Public transport service domain 57

Annex F (normative) Emergency Services service domain 60

Annex G (normative) Transport-related payment service domain 64

Annex H (normative) Road transport related personal safety services domain 68

Annex I (normative) Weather and environmental conditions monitoring services domain 72

Annex J (normative) Disaster response management and coordination services domain 74

Annex K (normative) National Security services domain 78

Annex L (normative) ITS Data Management services domain 82

Annex M (normative) Performance Management services domain 85
