ISO 4141-3:2019 (E)

Road vehicles — Multi-core connecting cables — Part 3: Construction, dimensions and marking of unscreened sheathed low-voltage cables

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 General Requirements

5 Construction and dimensions

- 5.1 Single cores
- 5.1.1 General
- 5.1.2 Additional elements
- 5.2 Outer sheath dimensions
- 5.2.1 Thickness
- 5.2.2 Outside diameter
- 5.3 Coil dimensions

6 Marking

- 6.1 Cores
- 6.2 Sheath

Annex A (informative) Nominal cross-sections of individual cores in multi-core cables as specified in International Standards cited in 5.1
