## ISO 19072-4:2019 (E)

Road vehicles — Connection interface for pyrotechnic devices, two-way and three-way connections — Part 4: Pyrotechnic device and harness connector assembly - type 2

## **Contents**

		Foreword
		Introduction
1		Scope
2		Normative references
3		Terms and definitions
4		Dimensional features and performance requirements
	4.1	General
	4.2	Retainer and squib holder assembly
	4.3	Coding and polarization
	4.4	Mechanical shorting clip function
	4.4.1	Dimensional features and properties
	4.4.2	Requirements
5		Material characteristics
	5.1 5.2	Contacts clip contact specifications Retainer
Annex	Α	(normative) Three-way (with ground) variant of the pyrotechnic device/initiator harness connector assembly
Annex	В	(normative) Gauge for minimum shorting clip opening
