# ISO/TS 19072-5:2019 (E)

## Road vehicles — Connection interface for pyrotechnic devices, two-way and three-way connections — Part 5: Pyrotechnic device and harness connector assembly - type 3 (only two-way)

## Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Dimensional features and performance requirements

- 4.1 General
- 4.2 Retainer and squib holder assembly
- 4.3 Coding and polarisation
- 4.4 Figure 4 illustrates the dimensional features and properties for retainer function
- 4.5 Figure 5 illustrates the mating orientation view

5 Material characteristics – Retainer
