|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | v           |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....  | 1           |
| 3   | Terms and definitions .....   | 2           |
| 4   | Symbols .....   | 3           |
| 5   | Requirements .....  | 3           |
| 5.1   | Minimum enabling capabilities .....                                   | 3           |
| 5.2   | Operating model -- State transition diagram .....                     | 4           |
| 5.2.1   | General .....   | 4           |
| 5.2.2   | State functional descriptions .....                                   | 4           |
| 5.3   | System types .....  | 5           |
| 5.4   | System classes .....  | 5           |
| 5.5   | Performance requirements .....  | 5           |
| 5.5.1   | General .....   | 5           |
| 5.5.2   | Hazardous situation .....   | 5           |
| 5.5.3   | Operating speed .....   | 6           |
| 5.5.4   | Horizontal curve radius capability .....                              | 7           |
| 5.5.5   | Countermeasure requirements .....                                     | 7           |
| 5.5.6   | Driver controls and human interface .....                             | 8           |
| 6   | Test procedures .....   | 9           |
| 6.1   | General .....   | 9           |
| 6.2   | Bicyclist test target specification .....                             | 9           |
| 6.2.1   | Test target physical characteristics .....                            | 9           |
| 6.2.2   | Detectability specifications .....                                    | 9           |
| 6.3   | Environmental conditions .....  | 9           |
| 6.3.1   | General .....   | 9           |
| 6.3.2   | Driving surface .....   | 9           |
| 6.3.3   | Ambient air temperature .....   | 9           |
| 6.3.4   | Horizontal visibility .....   | 9           |
| 6.3.5   | Ambient illumination .....  | 10          |
| 6.4   | Test procedure for longitudinal scenario (limited dynamic-test) ..... | 12          |
| 6.5   | Test procedure for crossing scenario (limited dynamic-test) .....     | 13          |
| Annex A (informative) Information relative to BDCMS ..... |   | 15          |
| Bibliography .....  |   | 18          |
