## Intelligent transport systems — Information for emergency service support via personal ITS station — Part 1: General requirements and technical definition

---

### Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Abbreviated terms
5	General information
6	Use case implementation
6.1	Use case clusters and associated use cases
6.2	Use case implementation
6.2.1	UC cluster 1 — Impact detection
6.2.1.1	UC 1.1 Impact detection through in-vehicle G-sensor
6.2.1.2	UC 1.2 Impact detection through P-ITS-S G-sensor
6.2.2	UC cluster 2 — Accident determination
6.2.2.1	UC 2.1 Airbag-deployed accident
6.2.2.2	UC 2.2 Rollover accident
6.2.2.3	UC 2.3 Stationary vehicle accident
7	Data eXchange messages definitions
7.1	General
7.2	impact-detection
7.3	vehicle-speed
7.4	airbag-deployment-check
7.5	roll-over-check
7.6	send-accident-data
Annex A	(normative) Data Type
A.1	Impact
A.2	EventLocation
A.3	Roll over
Annex B	(normative) Code list
B.1	AirbagStatus
