## Road vehicles — Calibration procedure for displacement devices

---

### Contents

|         |  |
|---------|--|
|         | Foreword                                       |
|         | Introduction                                   |
| 1       | Scope  |
| 2       | Normative references                           |
| 3       | Terms and definitions                          |
| 4       | Displacement calibration procedure             |
| 4.1     | General  |
| 4.2     | Preparations                                   |
| 4.3     | Test equipment set up                          |
| 4.4     | Establish starting point                       |
| 4.5     | Displacement calibration data collection       |
| 5       | Calibration data processing                    |
| 5.1     | General  |
| 5.2     | ISO 6487 definition                            |
| 5.3     | SAE 2570 definition                            |
| Annex A | (informative) Example: Knee-slider (FS: 35 mm) |
| A.1     | General  |
| A.2     | Measurement data                               |
| A.3     | Results  |
| A.4     | Uncertainty calculation                        |
