Intelligent transport systems - Roadside modules SNMP data interface - Part 5: Logs

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Conformance	2
5	User needs	3
5.1	Log user-defined exceptions	3
5.1.1	Log user-defined exceptions user need	3
5.1.2	Log user-defined exception design overview	3
5.1.3	Graphical relationships	3
6	Requirements	4
6.1	Log	4
6.1.1	Log definition	4
6.1.2	Log data exchange requirements	5
6.1.3	Log capability requirements	5
6.2	Log event factory	5
6.2.1	Log event factory definition	5
6.2.2	Log event factory data exchange requirements	5
6.3	Log manager	6
6.3.1	Log manager definition	6
6.3.2	Log management data exchange requirements	6
6.3.3	Log management capability requirements	7
7	Dialogues	7
7.1	Clear old events from a log	7
8	Security vulnerabilities	7
Annex A (normative) Management information base (MIB)		8
Annex B (normative) Requirements traceability matrix (RTM)		19
