Freight containers - NFC or/and QR code seals

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Freight container -- NFC or/and QR code seals | 2 |
| 4.1 | General requirements | 2 |
| 4.2 | Data format and content of NFC seal | 2 |
| 4.3 | Data format and content of QR code seal | 3 |
| 4.4 | Data format and content of NFC and QR code seal | 3 |
| 4.5 | Requirements for the communication interface between NFC seal and NFC read/ write device | 3 |
| 4.6 | Requirements of QR code printing and reading | 4 |
| 5 | NFC or/and QR code seal system for freight containers | 4 |
| 5.1 | System components | 4 |
| 5.2 | General requirements | 4 |
| 6 | NFC read/write device and QR code read device | 5 |
| 6.1 | General requirements | 5 |
| 6.2 | Content and format of data interaction | 5 |
| 7 | Information management platform | 6 |
| 7.1 | General requirements | 6 |
| 7.2 | Content and format of the data interaction interface | 6 |
| 7.3 | Extensions | 7 |
| 8 | Operation requirements | 7 |
| 8.1 | Operation at sealing point | 7 |
| 8.2 | Operation at unsealing point | 7 |
| 8.3 | Operation during transportation | 8 |
| 8.4 | Abnormality reporting | 8 |
| 8.5 | Authenticity verification of NFC and QR code seal | 8 |
