## Road vehicles - Test contaminants for filter evaluation - Part 1: Arizona test dust

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| Foreword .....   |  | iv          |
| Introduction .....   |  | v           |
| 1  | Scope .....  | 1           |
| 2  | Normative references .....   | 1           |
| 3  | Terms and definitions .....  | 1           |
| 4  | Test dust description .....  | 1           |
| 5  | Test dust designation .....  | 2           |
| 6  | Particle size distribution .....   | 2           |
| 7  | Chemical composition .....   | 2           |
| 7.1  | Typical chemical content of ISO specified Arizona test dusts .....       | 2           |
| 7.2  | Chemical analysis methodology -- X-ray fluorescence analysis (XRF) ..... | 3           |
| Annex A (normative) Analysis equipment and operating procedure ..... |  | 4           |
| Annex B (informative) History of Arizona test dust .....             |  | 8           |
| Annex C (informative) Handling and preparation .....                 |  | 10          |
| Bibliography .....   |  | 15          |
