## Road vehicles - Local Interconnect Network (LIN) - Part 1: General information and use case definition

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....                                     | 1           |
| 3                  | Terms and definitions .....                                    | 1           |
| 4                  | Abbreviated terms .....  | 2           |
| 5                  | Conventions .....  | 2           |
| 6                  | Use case overview and principles .....                         | 3           |
| 6.1                | Basic principles for use case definition .....                 | 3           |
| 6.2                | Use case clusters .....  | 3           |
| 7                  | LIN communication system use case definition .....             | 3           |
| 7.1                | UC 1 Commander task cluster .....                              | 3           |
| 7.1.1              | UC 1.1 Generate LIN frame header .....                         | 3           |
| 7.2                | UC 2 Responder task cluster .....                              | 4           |
| 7.2.1              | UC 2.1 Break/sync byte field sequence detector .....           | 4           |
| 7.2.2              | UC 2.2 LIN frame processor .....                               | 4           |
| 7.2.3              | UC 2.3 Responder node configuration .....                      | 4           |
| 7.2.4              | UC 2.4 Responder error status reporting .....                  | 5           |
| 7.2.5              | UC 2.5 Diagnostic responder node capabilities .....            | 5           |
| 7.3                | UC 3 LIN communication protocol cluster .....                  | 6           |
| 7.3.1              | UC 3.1 Synchronization .....                                   | 6           |
| 7.3.2              | UC 3.2 Checksum .....  | 6           |
| 7.3.3              | UC 3.3 Responder bit rate detection .....                      | 6           |
| 7.4                | UC 4 LIN physical layer cluster .....                          | 7           |
| 7.4.1              | UC 4.1 Performance in non-operation supply voltage range ..... | 7           |
| 7.4.2              | UC 4.2 Loss of supply voltage .....                            | 7           |
| 7.5                | UC 5 LIN network management .....                              | 7           |
| 7.5.1              | UC 5.1 LIN cluster network management .....                    | 7           |
| Bibliography ..... |  | 8           |
