## Intelligent transport systems - Smart streetlighting management platform for road traffic safety enhancement - Overview and use cases

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Abbreviated terms .....	2
5	General Information .....	2
5.1	Overview of the smart streetlighting management platform (SSMP) .....	2
5.2	Priority service coverage areas .....	3
5.3	Warning information provision method .....	4
6	System component .....	5
6.1	Overall .....	5
6.2	Smart streetlighting .....	6
7	Use case definition .....	8
7.1	Overview .....	8
7.2	UC cluster 1: Crosswalk safety warning .....	10
7.2.1	UC 1.1: Jaywalking pedestrian .....	10
7.2.2	UC 1.2: Insufficient pedestrian green phasing .....	11
7.3	UC cluster 2: Crossroad safety warning .....	12
7.3.1	UC 2.1: Stop line violation .....	12
7.3.2	UC 2.2: Unprotected left-turn waiting vehicle .....	13
7.3.3	UC 2.3: Right-turn traffic accident .....	14
7.3.4	UC 2.4 Parking violation .....	15
7.4	UC cluster 3: Child protection zone safety warning .....	16
7.4.1	UC 3.1: Pedestrian group .....	16
7.4.2	UC 3.2: Speed violation .....	17
7.5	UC cluster 4: Tunnel and bridge safety warning .....	18
7.5.1	UC 4.1: Speed violation .....	18
7.5.2	UC 4.2: Slow-moving vehicle .....	19
7.5.3	UC 4.3: Parking violation .....	20
7.5.4	UC 4.4: Front danger .....	21
7.5.5	UC 4.5: Pedestrian .....	22
Annex A (informative)	Data comparison .....	24
Bibliography .....		25
