Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Abbreviated terms 2

5 Virtual test environment 2
5.1 Types and purposes 2
5.2 General requirements 3
5.2.1 Components of VTE 3
5.2.2 Pre-execution modules of a VTE 4
5.2.3 During and post-execution modules of a VTE 5
5.3 Functional requirements 5
5.3.1 Overview 5
5.3.2 Simulation module 5
5.3.3 Scenario execution module 6
5.3.4 Scenario description module 6

6 VTE qualification framework 6
6.1 General 6
6.2 Qualification of VTE development and maintenance process 7
6.2.1 General 7
6.2.2 Audit of input data 7
6.2.3 Models and calculation verification 7
6.2.4 Software release management 8
6.3 Qualification of the VTE usage 8
6.3.1 General 8
6.3.2 VTE usage process documentation 8
6.3.3 Team expertise 9
6.4 Qualification of the VTE performance based on real world data 9
6.4.1 General 9
6.4.2 System analysis 9
6.4.3 Operational design domain (ODD) analysis 10
6.4.4 Real world data collection 10
6.4.5 Virtual world data collection 12
6.5 Qualification of the VTE performance for synthetic test cases without real world evidence 13
