Road vehicles - Software update engineering - Vehicle configuration information

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1
3.1 General terminology 1
3.2 Terms related to vehicle configuration information 2
3.3 Abbreviated terms 3

4 Organizational level responsibilities 3
4.1 General 3
4.2 Requirements and recommendations 3
4.2.1 Software update engineering responsibilities 3
4.2.2 Organizational processes 3

5 Elements of VCI 3
5.1 General 3
5.2 Requirements and recommendations 3
5.2.1 Element management 3
5.2.2 Element assignments 4

6 Relationships between elements of VCI 6
6.1 General 6
6.2 Information model 6
6.3 Recommendations 7
6.3.1 Identification of relationships between elements of VCI 7
6.3.2 Communication of relationships between elements of VCI 7

7 Selection of relevant VCI 7
7.1 General 7
7.2 Requirements and recommendations 7
7.2.1 Software update project level 7
7.2.2 Software update package level 8
7.2.3 Software update campaign level 8

Annex A (informative) Examples of selection of relevant VCI 9
