Internal combustion engines - Piston rings - Part 4: Half keystone rings made of steel

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Overview	1
4	Ring types and designation examples	1
4.1	Type HK -- Straight faced half keystone ring 7°	1
4.2	Type HKB -- Barrel faced half keystone ring 7°	2
5	Common features	4
5.1	Type HK and HKB -- Half keystone ring	4
5.2	Type HK and HKB rings -- Outside and inside rounded edges	5
5.3	Type HK and HKB rings (fully faced and inlaid) -- Plating/coating thickness	6
5.4	Type HK and HKB rings -- Nitrided case depth	7
6	Force factors	8
7	Dimensions	8
