

DIN EN ISO 15091:2013-04 (E)

Paints and varnishes - Determination of the electrical conductivity and resistance (ISO 15091:2012)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	General	6
4.1	Measurement of the resistance	6
4.2	Avoidance of electrolysis and polarization effects	7
5	Apparatus	8
5.1	Measuring instrument	8
5.2	Measuring cell	8
6	Sampling	8
7	Procedure	8
7.1	Test conditions	8
7.2	Viscosity of test sample	9
7.3	Number of determinations	9
7.4	Measurement of the electrical resistance or the electrical conductivity	9
8	Expression of results	9
9	Precision	9
10	Test report	10
Annex A (normative) Calibration		11
Annex B (informative) Dependence of the conductivity on the measurement temperature		13
Bibliography		14
