Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Application 2
4.1 General 2
4.2 Application considerations 2
4.3 Structure and procedure of environmental risk assessment 3

5 Review of the risk of a biocidally active substance when used in the anti-fouling system 3
5.1 General 3
5.2 Assessment when a biocidally active substance is tentatively deemed to have "relatively low risk" 4
5.3 Assessment when a certain type of marine environment is considered to be a recipient of biocidally active substances 4

6 Exposure assessment 4
6.1 Preparing the emission scenario 4
6.2 Determination of the PEC 6

7 Selection of the appropriate PNEC 7

8 Risk characterization 7

9 Risk assessment of similar anti-fouling systems 7

10 Substances of concern 7

11 Risk assessment report 7

Annex A (normative) Minimum information required for a risk assessment report 8
