DIN EN 15773:2018-03 (E)

Industrial application of powder organic coatings to hot dip galvanized or sherardized steel articles [duplex systems] - Specifications, recommendations and guidelines

Contents

Page

European foreword 4

Introduction 5

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Ordering 9
4.1 General 9
4.2 Request for quotation 11
4.3 Information provision 11
4.4 Delivery of product prepared for coating 12

5 Fabrication 12
5.1 Surface condition of the steel 12
5.2 Nature and composition of the raw material 12
5.3 Welds, markings, labels 12
5.4 Deviations of edges and sides 13

6 Zinc coating and zinc surface 13
6.1 Cooling 13
6.2 Quality and inspection of the zinc coating 13
6.3 Surface preparation prior to pre-treatment for application of powder organic coatings 14
6.4 Storage, packaging and transport after galvanizing or sherardizing 14
6.5 Acceptance check 14

7 Pre-treatment of the zinc surface 14
7.1 General 14
7.2 Chemical pre-treatment 15
7.3 Mechanical pre-treatment (sweep blasting) 15

8 Powder organic coating layers 16
8.1 General 16
8.2 Specification of powder organic coating 17
8.3 Repair of the coating system 17

9 Packaging, storage and further movement of finished products 17

10 Installation 17

11 Inspection of finished products 17

12 Health and safety 17

Annex A (normative) Considerations when designing and fabricating items for galvanizing or sherardizing and subsequent application of powder organic coatings 18

Annex B (informative) Guidance on the influence of steel surface chemistry on the surface condition and pre-treatment of galvanized or sherardized articles prior to application of powder organic coatings 19

Annex C (informative) Guidance on treatment of hot dip galvanized or sherardized articles prior to pre-treatment for application of powder organic coatings 21

C.1 Cooling 21
C.2 Prominent welds and sharp points on the zinc coating 21
C.3 Avoidance of condensation during storage, packaging and transport after galvanizing or sherardizing 21

Annex D (informative) Guidance on pre-treatment of hot dip galvanized or sherardized articles prior to the application of powder organic coatings 22

D.1 General 22
D.2 Mechanical pre-treatment 22
