Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Preconditions for the execution of the paint work 2
4.1 Qualification 2
4.2 Condition of the substrate 2
4.3 Health and safety and environmental protection 2

5 Coating materials 3
5.1 Supply 3
5.2 Storage 3

6 Execution of paint work 3
6.1 General 3
6.2 Application conditions 4
6.3 Application methods 5
6.3.1 Brush application 5
6.3.2 Roller application 5
6.3.3 Spray application 5
6.3.4 Other application methods 5
6.4 Evaluation before work commences 5

7 Supervision of the paint work 5
7.1 General 5
7.2 Measurement and test instruments 6
7.3 Assessments of the coating 6

8 Reference areas and reference specimens 7
8.1 General 7
8.2 Previously coated surfaces 7
8.2.1 General 7
8.2.2 Type A reference area 7
8.2.3 Type B reference area 7
8.3 Reference area records 7
8.4 Assessment of coating 7

Annex A (informative) Number of reference areas 9
