# ISO 12944-7:2017-11 (E)

## Paints and varnishes - Corrosion protection of steel structures by protective paint systems - Part 7: Execution and supervisi on of paint work

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Termsanddefinitions ..... 1

4 Preconditions for the execution of the paint work ..... 2
4.1 Qualification ..... 2
4.2 Condition of the substrate ..... 2
4.3 Health and safety and environmental protection ..... 2

5 Coating materials ..... 3
5.1 Supply ..... 3
5.2 Storage ..... 3

6 Execution of paint work ..... 3
6.1 General ..... 3
6.2 Application conditions ..... 4
6.3 Application methods ..... 5
6.3.1 Brush application ..... 5
6.3.2 Roller application ..... 5
6.3.3 Spray application ..... 5
6.3.4 Other application methods ..... 5
6.4 Evaluation before work commences ..... 5

7 Supervision of the paint work ..... 5
7.1 General ..... 5
7.2 Measurement and test instruments ..... 6
7.3 Assessments of the coating ..... 6

8 Reference areas and reference specimens ..... 7
8.1 General ..... 7
8.2 Previously coated surfaces ..... 7
8.2.1 General ..... 7
8.2.2 Type A reference area ..... 7
8.2.3 Type B reference area ..... 7
8.3 Reference area records ..... 7
8.4 Assessment of coating ..... 7

Annex A (informative) Number of reference areas ..... 9

Bibliography ..... 10
