| Foreword .....        |  | iv          |
| Introduction .....    |  | v           |
| 1                     | Scope .....                                    | 1           |
| 2                     | Normative references .....                     | 1           |
| 3                     | Terms and definitions .....                    | 2           |
| 4                     | Requirements and test methods .....            | 2           |
| 5                     | Sampling .....                                 | 2           |
| 6                     | Preparation of test specimen .....             | 2           |
| 7                     | Test methods .....                             | 2           |
| 7.1                   | Initial test methods .....                     | 2           |
| 7.2                   | Test methods after artificial weathering ..... | 3           |
| 7.3                   | Test methods after humidity exposure .....     | 4           |
| 7.4                   | Test methods after cyclic exposure .....       | 4           |
| 7.5                   | Tensile tests .....                            | 5           |
| 8                     | Test report .....                              | 5           |
| Annex A (informative) | Test cycles for cyclic exposure .....          | 6           |
