4.3 Materials 2

5 Requirements 2

6 Test methods 3
6.1 Sample preparation 3
6.2 Density 3
6.3 Flexural strength 3
6.4 Compressive strength 4
6.5 Initial setting time and final coagulation time 4
6.6 Water absorption rate 4
6.7 Oil absorption rate 4
6.8 Thermal conductivity 4
6.9 Impact resistance 4
6.10 Vibration resistance 4
6.11 Asbestos-free requirement 4
6.12 Organic matter content 4
6.13 Not readily ignitable 4
6.14 Low sowing flame 4
6.15 Smoke and toxicity 5
6.16 Non-combustibility 5
6.17 Fire resistance 5
6.18 Sound insulation index 5

7 Marking 5
